A Summary Checklist of

Medical Manuscripts on Microfilm

Held by the

NATIONAL LIBRARY OF MEDICINE

The cover illustration reproduces Wolfenbüttel MS. 47. 12. Aug. 4^{o} leaf 49^{r}, containing the beginning of Galen's Tegni or Ars medica.

National Library of Medicine
History of Medicine Division

MEDICAL MANUSCRIPTS ON MICROFILM

In 1965, the National Library of Medicine's History of Medicine Division began to build up an extensive file of medical MSS. on microfilm. To date (June 1968) 71 European libraries have cooperated in the project, and among them supplied a total of 582 MSS. on film. We are deeply grateful for their support.

The present list is designed to alert scholars to the program, and provide some idea of its scope.

The films supplied cannot be issued on loan or reproduced without the permission of the libraries supplying them: the films must therefore be consulted in the Library. The Curator of Early Western MSS. will, however, be happy to provide details of any item acquired.

Visitors to the Library are invited to use the card catalog of microfilmed manuscripts, arranged in five sections: (1) authors, (2) anonyma, (3) incipits, (4) provenance, and (5) shelf-list.
